# Entrixa Pulse— Stand Alone Access Control System

## Stand Alone Access Control System

The Realtime K7 is a robust fingerprint attendance and access control system designed to simplify workforce management and strengthen workplace security. Featuring a fast and accurate fingerprint sensor, the K7 ensures precise employee attendance tracking and prevents unauthorized access. It supports multiple authentication modes, including fingerprint, password, and RFID card, making it suitable for offices, factories, schools, and commercial establishments. With real-time data synchronization and seamless integration with attendance management software, the Realtime K7 enhances operational efficiency, productivity, and security. Choose Realtime Biometrics K7 for a reliable, secure, and user-friendly attendance solution.

### Product Specifications

- Proximity Card Reader: Built-in
- Card Support Type: EM Cards
- Reading Distance: > 5 cm
- Password Users: 1000
- Card Users: 1000
- Power Supply: 12V 2Amp
- Static Current: 65mA - 70mA
- Unlock Current: 80mA- 90mA
- Lock Type: Relay Output
- Working Temperature: 0°C - 60°C

### Realtime K7

### Key Features

- \* Smart Standalone Device
- \* Password
- \* Access Control
- \* Mobile App Support
- \* Touch Keypad
- \* EM Card Reader
- \* Bell Sound in-built

### Product Line and Ideas under Entrixa

- **Entrixa Pulse** — fingerprint readers
- **Entrixa Vision** — facial recognition systems
- **Entrixa Aadhaar** — Aadhaar enabled devices
- **Entrixa VaultCloud** — cloud-based access management platform
